

SUBMITTAL LIST FOR APPLICATION FOR SWIMMING POOLS

ONE COMPLETE SET of specifications and drawings, "**DRAWN TO SCALE**" with professional clarity and detail to indicate the nature and character of the work. Such drawings shall include the following:

1. **SITE PLAN** showing location of the proposed swimming pool and every existing building or structure on the site or lot.
2. The Plan shall include a boundary line survey, easements, rights-of-way, front-yard, side-yard, and rear-yard set backs.
3. The Plan shall include building footprint.
4. The Plan shall include fences and gates. The contractor is responsible for all code requirements of fences and gates.
5. The Plan shall include vacuum breakers. Also, how the pool will be filled and drained.
6. The Plan shall include the method of installation for common bonding grid.
7. The Connection of the bonding grid shall be made by exothermic welding, a pre-approved pressure connector or clamps that are labeled as being suitable for the purpose, and that is made of stainless steel, brass, copper or copper alloy.
8. The Plan shall include pre-approved bonding connectors.
9. The Plan shall insure that all construction conforms to the adopted building codes, ordinances and planned development district requirements.
10. All drawings, specifications and accompanying data shall be dated and bear the name and address of the designer.
